PETITIONING THE COURT

To incorporate the violations contained in this petition in future proceedings with the violations previously reported to the Court on 10/17/2017.

The probation officer believes that the offender has violated the following condition of supervision:

<u>Violation Number</u>	<u>Nature of Noncompliance</u>
-------------------------	--------------------------------

7

Mandatory Condition # 2: The defendant shall not commit another Federal, state, or local crime.

Supporting Evidence: The offender is considered to be in violation of his period of supervised release by committing the offense of violation of a no contact order on or prior to December 30, 2018.

On August 23, 2016, the offender signed his Judgement in a Criminal Case indicating he understood he could not commit any new criminal conduct.

According to reports obtained from the Soap Lake Police Department, the offender was contacted after an individual flagged down officers asking them to remove the offender from his property. After running a check on the offender, it was noted he had an active no contact order which excluded him from being within 1,000 feet of the victim of his last assault fourth domestic violence conviction. That conviction was on December 6, 2017, and is contained within the October 17, 2017, violation report which is pending before the Court.

The officers measured the distance from the victim's home to where he was contacted and the distance from the victim's home to the address where he was removed from. Both locations were within the 1,000 foot restricted zone. The offender was arrested and taken to the Grant County Jail. The offender is currently charged in Grant County District Court under case number 7Z1325219, and his next court date is February 13, 2018.

The U.S. Probation Office respectfully recommends the Court incorporate the violation contained in this petition in future proceedings with the violations previously reported to the Court.

I declare under penalty of perjury that the foregoing is true and correct.
